

767 Lunar: Semi Flush Light

Lunar Semi Flush Light: Form No. 767 features a single seeded glass globe mounted closer to the ceiling. The bubbles are added by hand and add to the pieces' unique nature. It is reminiscent of the moon's surface and has an effervescent quality to it. The semi flush light works particularly well in a hallway or any area with low ceilings. This design works well in many different styles of decor including, traditional, transitional, beach style, or contemporary.
