

301 Lucent: Wall Sconce

Lucent Wall Sconce Light: Form No. 301 refracts and bends the light to create a unique look to the light emitted from these fixtures. Inspired by the Fresnel lens which is used in lighthouses around the world to help ships avoid treacherous coastlines. This design works well in many different styles of decor including, traditional, transitional, beach style, or contemporary.

Form No. 301 is the smallest of our 300 series shades. This design fits well into more compact spaces.

Product Sku X1-301LUC-SCN01
