

# 763 Celestial: Wall Sconce

Form No. 763 in the Celestial Series features a fully frosted single seeded glass globe for more compact spaces. The bubbles are added by hand and add to the pieces' unique nature. It is reminiscent of the moon's surface and has an opaque quality to it. This design works well in many different styles of décor including, traditional, transitional, beach style, or contemporary.

Form No. 763 is the smallest of our 700 series globes. This sconce design fits well into more compact spaces as well as bathroom, bedroom and hallway lighting.
