

767 Glacial: 3 Pendant Cascade Chandelier

The Glacial 3 Pendant Cascade Chandelier: Form No. 767 features beautiful distorted bands that travels across the three frosted glass globes. The Glacial style is a variation on our popular Swell pattern. This style softens the light and the appearance of the bulb through frosted glass and is a great choice for those who find glass lighting to have some glare. This chandelier has a contemporary and handcrafted feel to it. The band is added to the glass by hand, and no two pieces are the same. This design works well in many different styles of décor including, traditional, transitional, beach style, modern, or contemporary. Each chandelier features three pendant lights in a cascading formation. These make elegant statement pieces for over a kitchen or dining room table.
