

768 Glacial: Single Pendant Light

Bicycle Glass Co.'s Glacial 768 Single Pendant Light features a fully frosted single glass globe, perfect as a statement piece. The Glacial style is a variation on our popular Swell pattern, with a beautiful distorted band that travels across the frosted glass globe. This style softens the light and the appearance of the bulb through frosted glass and is a great choice for those who find glass lighting to have some glare. The band is added to the glass by hand, and no two pieces are the same. This design works well in many different styles of décor including, traditional, transitional, beach style, modern, or contemporary. The largest size of our 700 series, these pendants make a statement on their own or even in a group of pendants for a larger space.

Product Sku X1-768GLA-PEN01

Glass Series 768
