

763 Glacial: 3 Pendant Linear Chandelier

The Glacial 3 Pendant Linear Chandelier - Design No. 763 features three fully frosted glass globes for more compact spaces. The Glacial style is a variation on our popular Swell pattern, with a beautiful distorted band that travels across the frosted glass globe. This style softens the light and the appearance of the bulb through frosted glass and is a great choice for those who find glass lighting to have some glare. The band is added to the glass by hand, and no two pieces are the same. This design works well in many different styles of decor including, traditional, transitional, beach style, or contemporary.

Each chandelier features three hand made pendant lights in a linear formation. These make wonderful chandeliers for over a kitchen or dining room table.
